Newsletter 67 : Flakes all year round

16/01/2015

Dear reader,

Our best wishes for the new year ! A good health, a lot of cookies and chocolate, and this 365 days of this new year.

Since chocolate flakes are big business all year long, we will another closer look to the Prefamac flaking machines. Chocolate moulds with your own name or logo is something to really start off the new year. Usually everything is possible. Finally, we will also look back at the Lego League of last year. The school that we supported was not the Belgian winner, but actually for us every contesting student was a winner. We wish you a lot looking and reading pleasure !

Myriam Schepers

Happy New Year !

We wish you, your family and your employees a year full of prosperity, good health, a lot of creativity in inventing new cookies and chocolates A year that is even more joyful, more enjoyable, more dynamic than previous years and this for 365 days. And if we can help here at Prefamac we will be pleased to hear from you.

Flakes round the truffle

Chocolate flakes on cakes, round truffles, to sell separately, ... it's really a business all year round. At Prefamac we have various types of flaking machines to produce as many kinds of flakes: the SNIPPER, the BASIC, CURL and PREMIUM. Most versions are available both as an industrial applications and as a standalone machine. Here above, we demonstrate an industrial CURL flaking machine, for the production of truffles. For this purpose, the CURL was combined with a cascade of underlying conveyor belts, an enrobing machine at the front and a cooling tunnel POWER behind it. On our website www.prefamac.com you can find much more information. Should you have questions

about your (desired) application ... do not hesitate to contact us.

Choose [more photos](#), where we will show you our other flaking machines, and also some end results.

Which is your logo ?

Is it not very "classy" if your chocolates are truly unique to your company or your customers? With company name, logo, both of them together, unique and recognizable everywhere as an additional marketing tool. In these past years, we saw some wonderful examples of our customers at Prefamac: kids animals, military decorations, peace flowers, beer ingredients If you are staying in the vicinity of the Paris Eiffel Tower, the Great Wall of China or the Indian Taj Mahal, ... then of course it is even easier. But an historic church or mosque, or even a beautiful courthouse ... all supplies unique results. From 100 pieces and with about 8 weeks delivery time you could already start planning. Type 275 x 135 mm, Type 275 x 175 mm, Type 275 x 205 mm,

With [more photos](#) you already have an idea. Our pneumatic scraper ADAPT, a quick help when filling these moulds, is also displayed.

And the winner is ...

Also this past year Prefamac supported the Lego League. This project aims to make children of 11 and 12 years globally enthusiastic for technology. With Lego bricks that we all know, a self-built robot and a computer. Perhaps this will result in the waffle bakers or the chocolatiers of the future, or the technicians who have to produce our machines. The class that Prefamac sponsored could not take the trophy home. But actually all

participating students have won. Thanks Voka Chamber of Commerce, for this wonderful initiative!
