Newsletter 70 : Prefamac at Milan World Expo

28/05/2015

Dear reader,

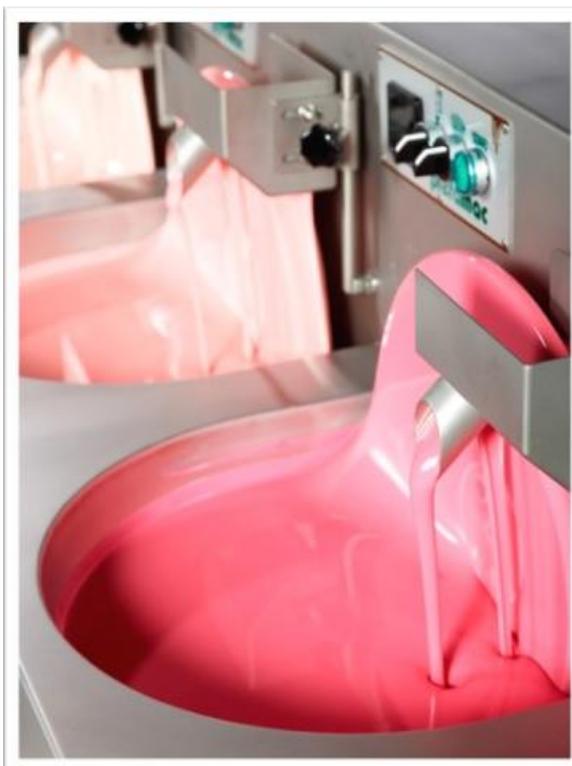

With the wedding months and the summer period in sight, in a large part of the world, our focus is on our 3 in 1 moulding machine. But also during the Expo period, this time held in Europe in Italy, where Prefamac is once more demonstrating its products. The world exhibition will be held until October. Certainly worth a visit over the coming months! And after the summer we have to start planning the new production right away, so the machines must be completely ready. Time for a visit?

Enjoy the read and we hope to see you at the Expo in wonderful Milan.

Myriam Schepers  
Managing Director

#### Wedding bells in chocolate

Looking for something different for a wedding? Our guests can choose themselves whether they want white, milk or coloured chocolate - on their fruit skewer, ice cream or delicious cakes. With the compact 3 in 1 that's only 1.40 m wide you have great flexibility. Three machines with separate temperature control means you can create the most wonderful results. The 3 in 1 can also be mounted on a mobile frame and become the centre point of the show. Let the wedding bells ring out!!! Also great for communion parties, informal celebrations, open school days, fundraising like for Nepal at the moment, for example, ... or just as a demo machine in your shop :-)

Go to [more photos](#) to see a number of applications of the popular 3 in 1.

# MILANO 2015

01/05 – 31/10/2015

## Prefamac at Milan Expo

The world exhibition is now in its 34th edition and this year is being held in beautiful Milan in southern Italy. The core theme is Feeding the Planet, Energy for Life. In the Belgian pavilion "chocolate" is put in the spotlight. And just like every year the chocolate corner is once more fully equipped with Prefamac machines. It's pure indulgence as every week there are 2 or 3 new Belgian super chocolatiers. Why don't you drop in and visit us? Take a selfie with the Prefamac machines in the background. We'll be sure to put it in one of our future newsletters and on our website [www.prefamac.com](http://www.prefamac.com). Or bring it in yourself! Milan is only a one-hour flight from Brussels Airport.

At [more photos](#) .... you can see a number of the wonderful pavilions of Belgium, China, Italy, South Korea, Brazil, United Arab Emirates, Austria, United Kingdom ..... to name just a few.

## Time for a visit?

It's really busy at Prefamac this year! So make sure to pay us a visit, whether or not in combination with the Milan Expo. Cooling tunnels, decorative applications, enrobing machines, melting kettles, transport belts, etc., destined for all corners of the world. It's really worth your while! And there's also the opportunity to discuss maintenance of your machines towards the year-end season. Or the purchase of new machines. Our message is don't delay! Soft drinks and coffee are waiting for you.

Go to [more photos](#) and take a look at our range.
