

Dear reader,

We wish you a veryyyy nice summer holiday with ..... everything as you wish. At Prefamac, we remain at your disposal for urgent questions. Because with the winter in sight, you are probably already planning your new products and new machines now. So ... we have looked for some extra help through new employees and some trainees. A lot of reading and viewing pleasure, and we will hear you after your holiday !

#### A veryyyy nice summer holiday

We wish you a very good summer holiday with lots of sun, high mountains, beautiful lakes, inspiring cultures, delicious dishes & drinks, ... you name it! Also team Prefamac is in urgent need of a holiday and all of this fun! It has been enormously busy these last couple of months. We were not even able to get everybody together for our picture, so... sorry a few of our employees are missing. Buuuuu Prefamac is NOT CLOSED during the period from 10th until 31st July 2015. Only for our national holiday on 21st July, we have planned a long weekend.

#### Plan your new machines in time!

The first half of the year has flown by, so we all already think about Christmas and Easter next year. Because of the growing economic recovery globally and certainly the low EUR, delivery times have become longer at Prefamac. Therefore, it is important to plan your new investments in time. AND REALLY, IT IS VERY AMAZING AND INSTRUCTIVE TO VISIT US RIGHT NOW !!! All various machines are now

constantly in production.: decoration machines, cooling tunnels, enrobing machines, melting kettles, conveyors, flaking machines, tempering machines, compacts, ... we will already prepare a cup of coffee, tea or a soda. A telephone call is sufficient.

Click on [more photos](#), and you will immediately see a mnemonic device of your wish list :-)

### Hello ... Luna on the phone

“Hi there, I am the summer trainee at Prefamac ... Luna Deferm, 19 years old, just finished my 2e year university Applied Economic Sciences... and yes, I really like to gain some international experience. There is no better way than to be elected by Prefamac for a summer job where you can be certain that you will be in contact with more than 100 countries in a month! This will be very nice on my resume for later. How can I help you? ”

Click on [more photos](#) where you can see that Luna is already grown accustomed here.
