

Dear reader,

The tree leaves are falling. Autumn has begun. Everyone is thinking of winter, but we, at Prefamac, think of all the goodies, and delicious foods. All the delicious goodies going through our machines, made by top chocolatiers in romantic Paris, with the most unctuous Negro's kiss, or on a chocolate carpet just like Aladdin. And with Belgium # 1, a thank you from all of the Belgian people.

Enjoy your reading, and certainly feast your eyes.

### Flexibility trump!

The consumer wants innovation! Always more beautiful, and faster ... and certainly not at a higher price. At Prefamac, we have the answer to all those needs. Enrobing, decorating, flipping, different colours, everything is possible. With production lines of 400 mm up to 1.600 mm belt width. Speed, so high that products can hardly be seen with the naked eye. On the photograph, you can see an enrobing machine 1.200 mm, an adjustable conveyor, a decoration machine, and finally, various melting kettles to be able to switch easily from one colour to another.

### World Chocolate Masters Paris 2015

From 28 till 30 October 2015, Barry Callebaut organizes the World Chocolate Masters in Paris. As always, Prefamac is also this year 'golden sponsor' of this event, and will place the Prefamac chocolate machines at the disposal of all contestants. Twenty chef chocolatiers will compete against each other. Every chocolatier has been preselected in his/her country during the national qualifying rounds last year. Talent, skills, creativity, flexibility, and even stress resistance... these artists have to have it all. The winner not only receives a price in money and other gifts, but also a Prefamac Compact moulding machine. Who from Belgium, Brazil, Canada, China, Denmark, France, Germany, Italy, Japan, South Korea, Mexico, the Netherlands, Poland, Russia, Spain, Switzerland, Taiwan, Turkey, the UK or the USA will win ? To us, they are all artists of a higher standard!

### Delicious Negro kisses

"Hmmmmm, how delicious! Large, small. Just white, milk or dark chocolate. With extras, with lines, zigzag, or with nuts. Sooo divine. But after Black Peter ... also Negro kisses are the talk of the town. How

they are called, is not important for the addicts, as long as they don't disappear from the shelves.

Click on [more photos](#), where we show our industrial enrobing machines (from 400 mm to 1.600 mm belt width), but also our enrobing belts (18 or 28 cm), which are installed on the moulding or tempering machines. With our cooling tunnel (LIGHT or POWER version), a lot of negro's kisses can be produced. The decorating machines complete the entire chain.

### Chocolate carpet

"Yes, this is certainly a chocolatoholic! Last week, he was invited to the world record "largest chocolate carpet". The Belgian company "Holle Bolle Chocolaterie", together with the citizens of Tongeren, made an attempt to the largest carpet: 15 by 7 metres. Our machines were used for this attempt. Afterwards, the carpet was efficiently broken into pieces and sold for a good cause. The Belgian Centre for guide dogs, and their guides were very pleased with this wonderful and 'especially delicious' action. Thank you, Wendy, great idea right before Year's End!

### Belgium World Champion?

“Unique in history of our small country with only 11 million inhabitants : Belgium became #1 on the Fifa ranking. We are proud as a peacock. On to France next year ! Thank you, Mertens, De Bruyne and Hazard for the beautiful goals. Thank you, Red Devils ! And the party afterwards was really great.
